

To All Treehouse Residents:

In a great effort to keep Treehouse a clean and pleasant place to live, we ask the residents for their cooperation.

During the last two weeks we have noticed different dogs without a leash and owners not picking up after them; cigarettes butts around the buildings and common areas; garbage, boxes, wood, and signs in balconies (all balconies should be clean and organized at all times). It is really obvious for us to know which owners are not picking up after their dogs and the people smoking and throwing the cigarettes butts from their balconies, because of the location of the objects. Also, we have seen cars without valid registrations, cars that are not being moved for a long period of time, and trailers parked in non-designated areas (all the people that own trailers please call management to find out about designated areas and a monthly fee that needs to be applied, otherwise they will be towed).

In order to accomplish my job in the best way possible and maintain Treehouse as a wonderful place to live, we all need some kind of action. Please follow the Rules and Regulations for our complex and avoid fines that are going to start immediately.

If you have any questions, please call (970) 485-0957.

Thank you,

Raf Suarez  
Resident Manager  
Treehouse
